

TCS (Topcat Computer Services) Service Team

proudly presents the fastest password recovery and file unprotection service. We guarantee the confidentiality, extremely fast response time, reasonable prices and complete satisfaction.

Fast Recovery Service.

List of our services is expanding daily. Right now we are ready to fully unprotect:

Word processors docs:

	<h2>Word Docs Passwords</h2> <p>We are proudly present our Extremely fast word processors documents password recovery service! Our standard offer guarantees you the result within 12 hours!</p>
---	---

All versions of MS Office Word, IBM Lotus WordPro, Adobe PDF, [more...](#)

How we can help.

Word processing password recovery service is intended to recover passwords and/or remove protection from the large number of text files you used to deal with in day-to-day activities.

We have no restrictions about the language, encoding and size.

Our service does not use brute force attack to your files, nor password dictionary, nor generating Password like phrases to use it instead of password. We use own developed methods to quickly decrypt files and get the result within several minutes.

We guarantee quality, extremely fast response time and full confidentiality.

Electronic tables:

Spreadsheet Docs

The fastest spreadsheet password recovery and decryption service.

Ready to process All MS Office **Excel** files and All IBM **Lotus 1-2-3** files

All versions of MS Excel, IBM Lotus 1-2-3, [more...](#)

How we can help.

This service can help you with any spreadsheet table files protected with password which is lost or unknown. It is fast service with high quality and extremely low response time.

This service has no restrictions about language, data, encoding and the size. We have specially developed methods for this service which guarantee quality, quick response time and complete satisfaction with our work.

Database files:

Database services

The fastest database file password recovery and user-level security removal service. Ready to work with any MS Office Access file, any IBM Lotus Approach file, Paradox files and more...

Database today is the main tool to run business.

It is the only tool to run business sometime.

The tool which contains information about all orders, purchases, customers... etc.

Loss of access to database means loss of access to business. And this means loss of profit, market share, extra costs and so on.

Wasting time on trying to recover access to database means death of business sometime. In most cases this means loss of profit.

We easily handle with following database types:

MS Access (.mdb, .mde, .mde, etc...), Approach (.view, .apr, .apt), Paradox (.db) files

Mail files:

Ready to work with All MS Office Outlook files and MS Exchange archives.</p>
--	--

E-mail today is the most important part of business and home management.

Contacts, news and plenty of other daily-vital information stored in personal or corporate mail archives.

E-Mail password recovery and protection removal service is intended to fully unprotect all your e-mail related files.

Archives:

 A graphic for Archive services featuring a central white 'ZIP' text icon inside a square frame, set against a background of concentric, glowing yellow-green squares on a dark yellow-green grid.	<h2 data-bbox="690 1291 1079 1344">Archive services</h2> <p data-bbox="690 1375 1372 1459">The most powerful archive protection removal service. Ready to work with All ZIP files, All ARJ files, RAR files and more...</p>
---	--

Impossible is just an opinion.

Archiving software today became the most protected software. It is not so easy to get the password to open archive or decrypt it. So, it can take us some time to decrypt the archive depending on its size.

We ready to work with following archive types.

ARJ, RAR, ICE, ZIP, etc.

VBA macroses services:

 A graphic with a blue background and a central square containing a white icon of a document with a lock and a key, representing VBA macros.	<h2>VBA projects services</h2> <p>The fastest VBA-macros protection removal service. Ready to work with All MS Office files and almost any VBA-enabled documets.</p>
---	---

We ready to work with following software with VBA macroses.

VBA scripts in MS Word, MS Access, MS Excel, MS Outlook, etc...
